

- Permanent, non-toxic ink
- Blendable colour
- Professional, non-streak finish
- For all kinds of art, craft and design

The ProMarker colour palette has been carefully chosen to include strong vibrant hues plus a range of subtle tones and pastel shades to extend creative expression.

ProMarker inks are translucent too, which means they can be overlaid to create an almost limitless range of colours and tones, and you can use the blender to merge colours together.

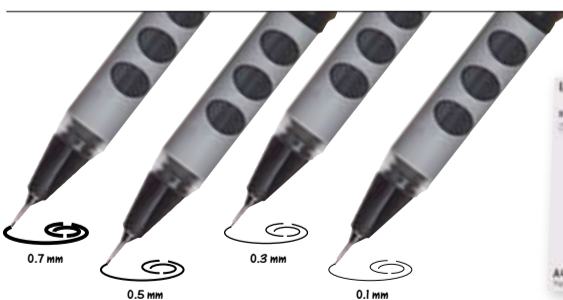

ProMarker 5-Packs are a great way to buy ProMarkers. Each set of 5 markers have been specially selected to work well together.

## Creative Tip...

ProMarker inks are translucent, so the more you apply the deeper the colour. Add shade and depth to your work, simply by applying ink in layers. Or overlay different colours to produce new colours.

## Fine Liners

Letraset Fine Liners take care of all your outlining and detail work. They contain water-based, pigmented inks - so they won't bleed into alcohol based marker inks. 4 different line widths are available.

## Pads

Letraset offers a range of high quality pads. The original and best bleedproof pad has been designed to give optimum performance with Markers, which means that:

- The colour will not dull when it dries,
- You won't waste the next sheet in the pad, and
- The colour will not feather causing fuzzy edges to your work.

Each pad contains 50 Sheets - available in A4, A3 and A2.

## Storage

With a Letraset Wallet you can customise your own palette. It holds up to 24 Markers in separate pouches, so you can build up the range of colours that suits you.

The Marker Organiser holds up to 12 Markers. Organise your ProMarkers and keep your desk tidy with this modular solution.

## Letrajt Air

Create subtle graduations and soften hard edges, or use stencils for fantastic effects. The Letrajt Air attaches easily to your ProMarkers for quick and convenient airbrushing. Change colours quickly and easily with no mess by simply slotting in a different colour marker.
