\$49.99

SKETCHING DRAWING TECHNIQUES FOR PRODUCT DESIGNERS

A must have for product design students! Are designers still making drawings by hand? Isn't it more advanced to use a computer in this computer era? Some may think sketching is a disappearing skill, but if you ever enter a design studio, you will find out differently. Studios still make sketches and drawings by hand and in most cases, quite a lot of them.

\$55.00

SKETCHING THE BASICS DRAWING TECH PRODUCT DESIGN

This book explains the basic sketching techniques and decisions more in depth and provides much more step-by-step example drawings, which makes it even more suitable for students and professionals who want to become better sketchers. Sketching the Basics can be seen as the prequel to Sketching as it is more targeted at the novice designer.

\$55.00

MODULAR MICRO APARTMENTS

Can we get a feeling of spaciousness and well-being in an apartment when the available space is very limited? This book shows that not only is it possible, but often the solutions turn the house itself into a unique and singular space. These types of projects are also a challenge for architects, since they require bringing into play all their ingenuity, technique and talent.

\$49.99
