

Design Books.

March 2018

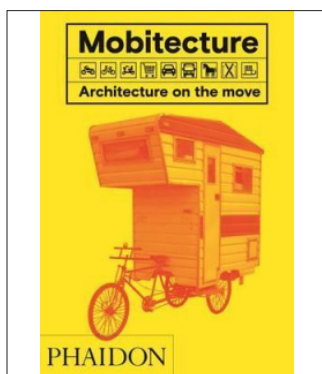

I am pleased to announce that I have joined our Schools Direct sales team as an account manager. I am now responsible for sales into selected schools in the Auckland region, Bay of Plenty and all South Island schools. Many of you I have met during the 24 years I have worked at Gordon Harris. In that time I have enjoyed looking after Advertising Agencies, Graphic Design Studios, Illustrators, Architects, Artists and more recently Street Artists. I look forward to working with and learning from you as we continue to develop our business supplying Secondary School Art and Technology departments.

Please don't hesitate to contact me if you have any queries.

Mobitecture - Architecture on the Move

A lively collection of mobile, portable, and movable structures of all kinds. Celebrate mobile architecture in all its forms with this celebration of life on the move. Ranging from quirky to sensible and from rustic to deluxe.

\$39.99

Eco Design Furniture

This book offers a more environmentally conscious approach to design and production processes by presenting a wide range of furniture products made with natural materials as well as using recycling and more environment respecting technologies.

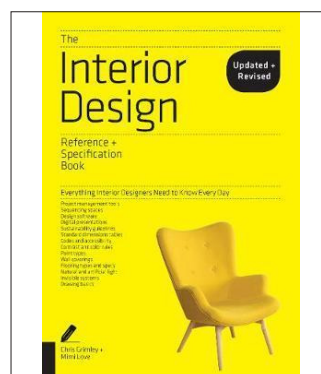

\$65.00

Art of Folding Vol 2

Drawing on examples from nature, this second volume focuses on folders' know-how as it applies to art, design, decoration, fashion, furniture and lightning, architecture, new folding techniques and "intelligent" objects. Also available Art of Folding (9788415967774) \$59.99.

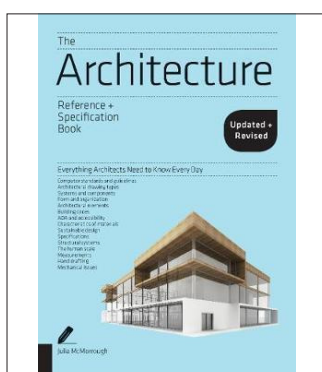

\$89.99

Interior Design Referenced Revised Updated (Bestseller)

This book collects the information essential to planning and executing interior projects of all shapes and sizes, and distills it in a format that is as easy to use as it is to carry. You'll also find interviews with top practitioners drawn across the field of interior design.

\$32.99

Architecture Referenced Revised Updated (Bestseller)

Contains vital information that's essential to planning and executing architectural projects of all shapes and sizes and distills the data provided in standard architectural volumes and is an easy-to-use reference for the most indispensable types of architectural information.

\$32.99

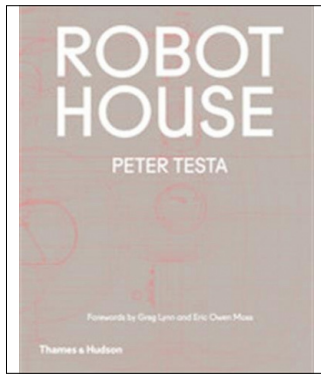

Architectural Drawing Course Revised and Expanded

All students with a budding interest in architectural design will value this book for its solid foundational orientation and instruction. Mo Zell introduces readers to architecture's visual language, showing them how to think spatially and getting them started in architectural drawing with a series of instructional tutorials.

\$39.99

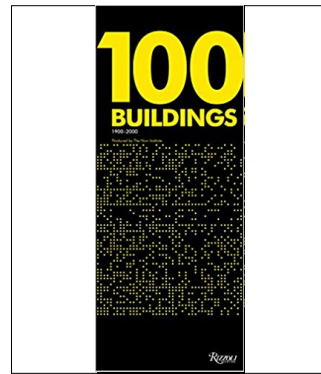

Architecture

Robot House Architecture and Robotics P/B

Peter Testa is a design innovation leader whose work spans Architecture, Art, Design, AI and Robotics. The book documents next generation design and imaging techniques applying Robotics, Machine Vision, and Augmented Reality for architects, designers, artists, and film makers.

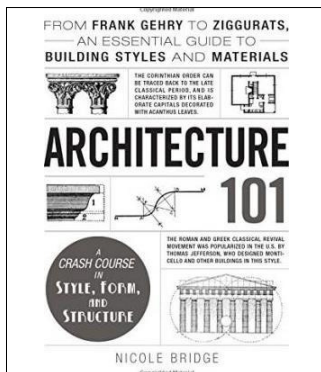

\$55.00

100 Buildings - 1900-2000

Over forty internationally renowned architects and educators from Peter Eisenman and the late Zaha Hadid to Rafael Moneo and Cesar Pelli were asked to list the top 100 twentieth-century architectural projects they would teach to students.

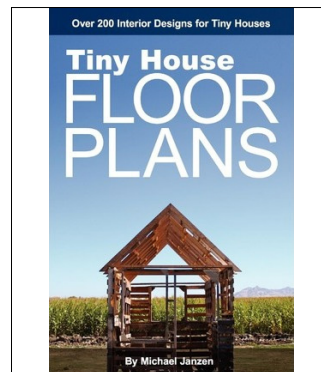

\$49.99

Architecture 101- Style, Form & Structure

A crash course in designing and constructing buildings. Architecture 101 cuts out the boring explanations, and instead provides a hands-on lesson that keeps you engaged as you explore the world's greatest structures.

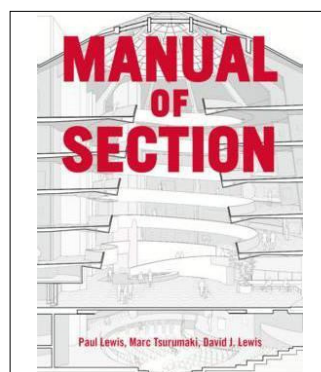

\$34.99

Tiny House Floor Plans

Inside Tiny House Floor Plans you'll find over 200 interior designs for tiny houses. Each chapter focuses on one size footprint to show what can be done inside each size space.

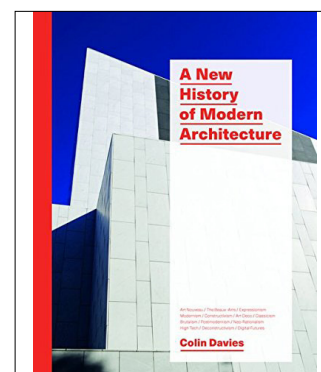

\$55.00

Manual of Section

This book will articulate for students how the logic of the section is instrumental to architecture, through a series of intricate cross-section perspectives of important buildings of the 20th and 21st centuries.

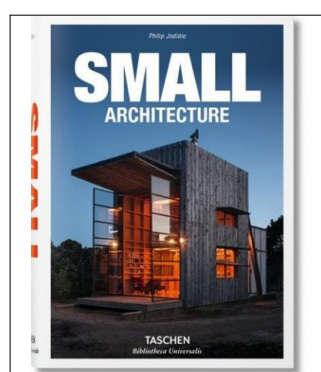

\$65.00

New History Modern Architecture (Paperback)

In this engaging and thought-provoking book, Colin Davies subjects the canonical architecture of the twentieth century to a thorough reassessment. Davies questions the values and judgements that are so often the mainstay of architectural surveys.

\$60.00

Small Architecture

Saving space: Big ideas for small buildings. Over the years, talented architects have occasionally indulged themselves with the challenge of designing small but perfectly formed buildings. Today, with reduced budgets, many architects have turned in a more focused way to creating works.

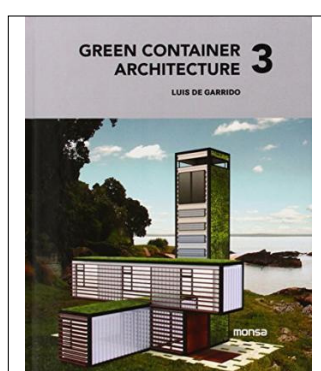

\$50.00

New Town Houses

All of the featured projects share one main characteristic their ability to make the most out of limited spaces in creative ways. Within the basic typology of a flat building between parallel walls, a world of possibilities is opened up spaces full of light and other features.

\$49.99

Green Container Architecture 3

Standardized dimensions - as well as being economic and secure - also happen to be almost perfect in terms of human scale, meaning they are entirely appropriate for designing habitable spaces. Green Container Architecture 3 features four advanced container projects designed by renowned architect and expert on sustainability, Luis de Garrido.

\$49.99

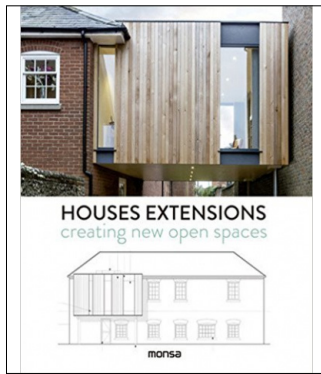

Clever Solutions: Small Apartments

This book explores various storage solutions for apartments of different sizes. It is structured from the lowest to the highest available surface, and they all have aspects in common: the style of each house, the space available, the entrance of light and how to take advantage of it.

\$49.99

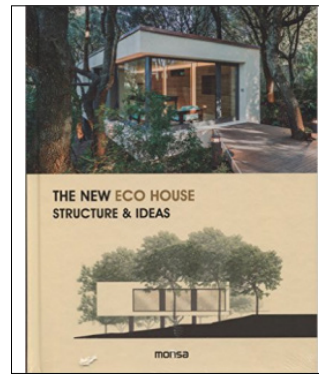

Architecture

House Extensions New Open Spaces

The challenge for today's architects is thus to adapt our old buildings to our new ways of living, whilst not destroying what we like about them. This often means adding more space to the back, the roof or the side, or even sometimes underneath.

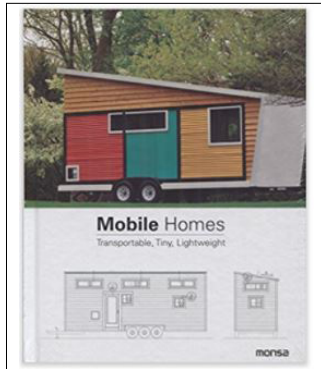

\$49.99

New Eco Houses Structure and Ideas

This book explains this new direction in architecture, a method to build or renovate close to what may eventually be known as bioconstruction — a building system with recycled or recyclable low-environmental impact materials.

\$49.99

Mobile Homes

Transportable, tiny, lightweight. A new architectural trend has appeared, mobile homes which can be transported, some are built on wheels, turning into rolling houses in the most literal sense of the word. Others can be easily carried on a truck and be moved to the places their owners desire.

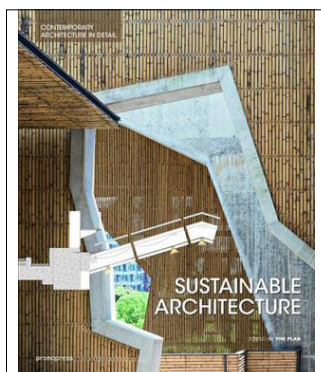

\$49.99

Low Cost Architecture

Brings together 14 projects from around the world that showcase innovative ideas and the latest trends in affordable housing solutions. Each of the featured projects is accompanied by full-colour photographs, detailed architectural plans, and a brief introduction.

\$49.99

Sustainable Architecture

This book includes twenty-five contemporary architecture projects which pay special attention to the relationship between architecture and the environment, considering not only the health of our planet but also the social and economic impact of architecture.

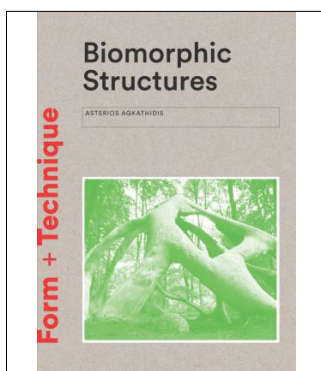

\$110.00

Nomadic Living Relocatable Residences

Because of the increased needs to both preserve our identity that is rooted in our home and to be more geographically mobile, the market for "movable" houses has grown and diversified. This is most noticeable in the growing numbers of commissions received by architects and designers.

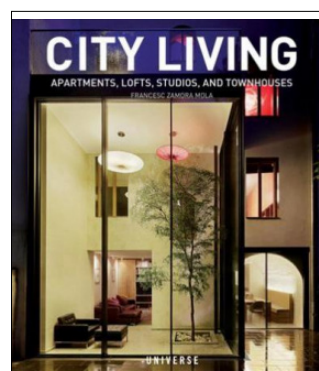

\$85.00

Biomorphic Structures

This book examines how nature can act as a precedent for design solutions through twelve case studies. Packed with computer drawings, sketches, models and photographs. From leaves to liquids, caves to crystal formations, nature has always been a major source of inspiration for architects.

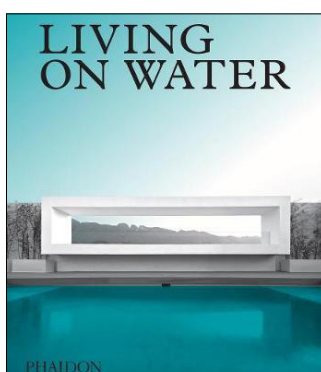

\$26.99

City Living: Apartments, Lofts, Studios and Town Houses

City Living looks at the movement toward ecologically minded compact houses through the lens of urban life. This lavishly illustrated volume includes 600 full-colour photographs and diagrams.

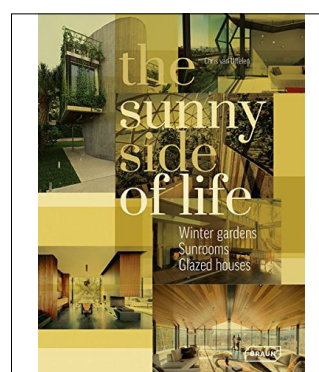

\$69.99

Living on Water: Contemporary Architecture

A sumptuous survey of houses built with a strong connection to the oceans, lakes, rivers, and pools around them. Living on Water showcases the finest examples of residential architecture that have one thing in common - their special relationship to that most essential of elements: water.

\$70.00

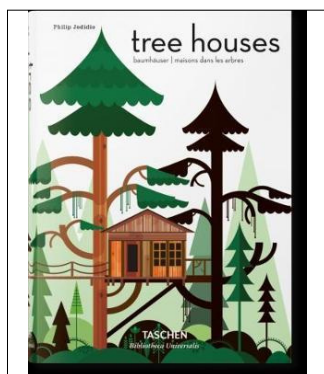

Sunny Side of Life

Daylight is an important consideration in almost every architectural project. This title presents residential projects in which it is a fundamental feature of the design. The spotlight is on conservatories or winter gardens, built with glazed or opaque roofs depending on the climatic conditions.

\$60.00

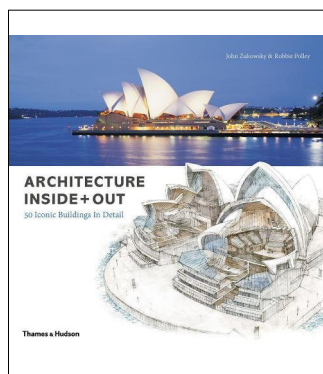

Architecture

Tree Houses Castles in the Air

Take a tour of some of our finest arboreal adventures with 50 of the most beautiful, inventive, and enchanting tree houses around the world. From romantic to contemporary, from famed architects to little-known craftsmen, you'll scale the heights to visit all manner of treetop structures.

\$50.00

Architecture Inside and out

Architecture Inside + Out examines fifty of the world's most impressive buildings and uncovers their structural secrets. By researching original plans, notes and drawings, this book reveals the expertise and original intentions behind these magnificent creations.

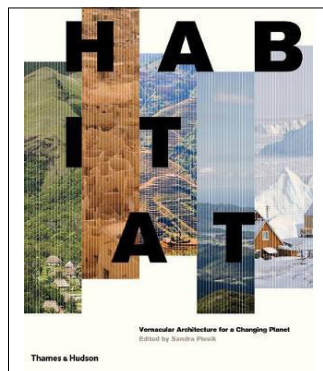

\$55.00

Concrete

A visual exploration of the world's most extraordinary and inspiring concrete architecture - in a stylish and compact format. "Yes, concrete can be cold and imposing - but as the structures in the book attest, it can also be colourful, playful, and delicate." -Wall Street.

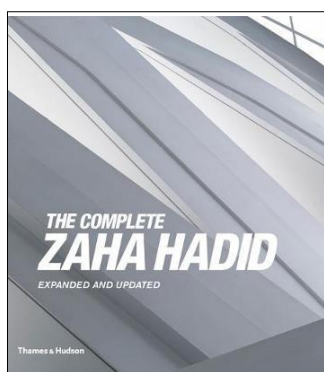

\$37.99

Habitat Vernacular Architecture

Gathering together the world's leading experts on vernacular architecture, this once-in-a-generation publication examines how local buildings have stood the test of time and offer vital lessons for the future.

\$190.00

Complete Zaha Hadid Revised Expanded

This compact and comprehensive edition has been thoroughly expanded and brought up to date with the latest completed buildings and Hadid's final projects. The book contains an array of imagery, including paintings, sculpture-like models, multi-perspective drawings, and dynamic computer renderings.

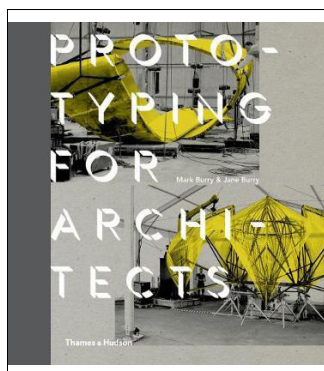

\$55.00

Good Ideas Alternative Homes

Featuring fully illustrated examples of several types of homes prefabricated, rehabilitated, made with natural materials this volume is divided into three parts that explore alternative methods in the design and construction of residential projects.

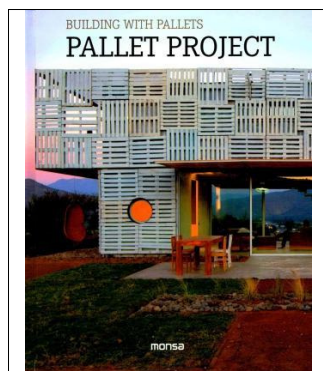

\$49.99

Prototyping for Architects

Prototyping for Architects examines how architects are combining new digital design and fabrication technologies with traditional hands-on building techniques to gain more insight into the strengths and weaknesses of their designs.

\$60.00

Building with Pallets

Over the last few years, the use of pallets as a building material has increased dramatically - they are now regularly used in furniture design, interior design, temporary installations and even emergency housing. Not only are pallets an easy to obtain material - they are available virtually anywhere in the world.

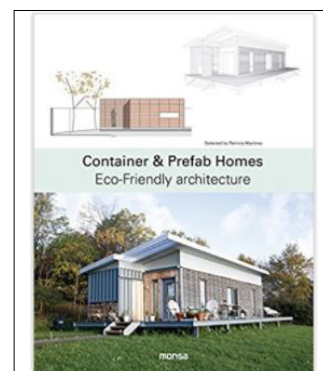

\$49.99

Minimal Compact Living

Diminutive rooms, grand possibilities. Small Homes, Grand Living shows how to make use of a limited space and turn a small apartment into a design marvel. Designers, architects, and innovative inhabitants seek new ways of creating a home that is just as comfortable as it is functional and aesthetically pleasing.

\$120.00

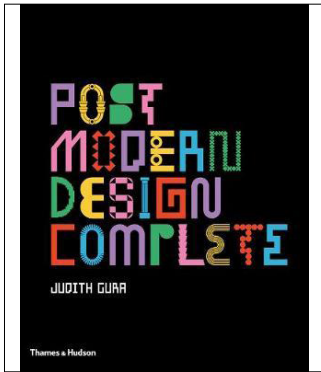

Container and Prefab Houses

This book presents 14 Eco-Friendly architectural projects committed to environmental conservation based on sustainable construction, featuring prefabricated homes made of wood, steel, etc., as well as container homes.

\$49.99

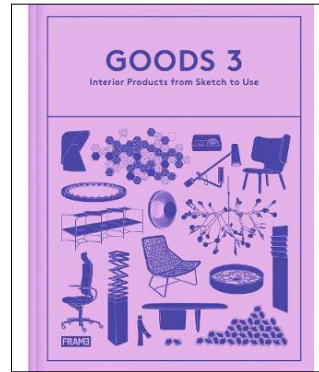

Product Design

Post Modern Design Complete

Postmodern Design Complete is the comprehensive reference to this period of vibrant design, as it profiles key creators including Graves, Mendini, Sottsass, Venturi, Charles Jencks, and Denise Scott Brown and covers the fields of architecture, furniture, graphic design, textiles, and product and industrial design.

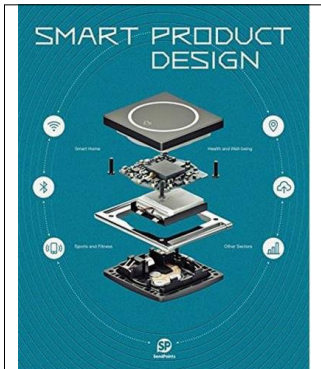

\$110.00

Goods 3 Interior Products from Sketch to Use.

Goods 3 features fifty iconic interior products from well - known designers and manufacturers from around the world. Each product is shown on eight pages from initial design sketch to its use in recently - designed interiors.

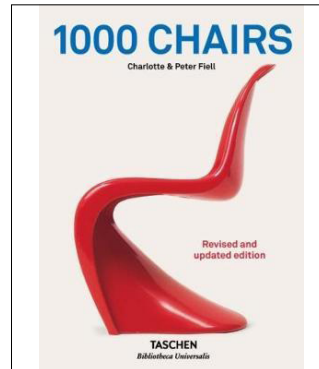

\$105.00

Smart Product Design

Smart Product Design looks at the latest innovations in smart home, health and wellbeing, sports and fitness, business, travel and more. Featuring almost 100 products with details and concept sketches as well as interviews.

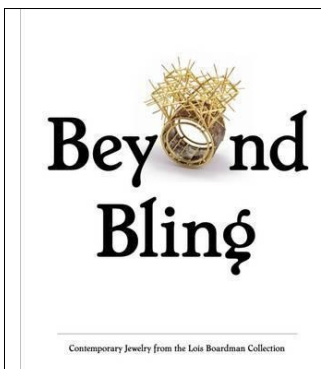

\$110.00

1000 Chairs Revised Updated

More than any other piece of furniture, the chair has been subjected to the wildest dreams of the designers. The particular curve of a backrest, or the twist of a leg, the angle of a seat or the colour of the entire artifact all reflect the stylistic consciousness of each era.

\$45.00

Beyond Bling: Contemporary Jewelry

This important collection of contemporary jewelry, recently donated to the Los Angeles County Museum of Art, reveals how studio jewelers have transformed the medium by confronting social issues and exploring new technologies and unconventional materials.

\$95.00

Transmaterial Next

In Transmaterial Next, the latest in the Transmaterial series, architect and materials expert Blaine Brownell introduces innovative materials and processes used today and on the horizon.

\$79.99

Digital Handmade New Edition

Today's revolution has been driven by digital technologies and tools, giving rise to entirely new working methods, skill sets and consumer products. Spearheading this movement is a new generation of creatives who fuse the precision and flexibility of computing and digital fabrication.

\$50.00

Design Affairs

This book shows how architects translate their architectural style into product design or modify it to suit the task at hand. It is fascinating to observe how the vaulted walls in a piece of parametric architecture influence the design of a pair of shoes.

\$45.00

Food Package Design

This book displays current trends and popular approaches of Food Packaging Design. Fully illustrated with chapters covering an overview of food packaging, food packaging forms, materials and design.

\$49.99

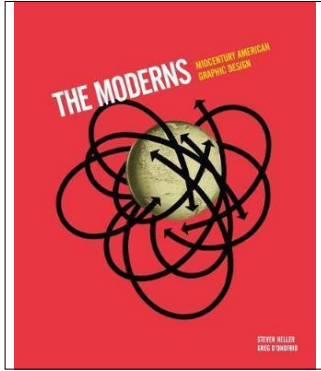

Package Design 3

Featuring a selection of over 400 works from 30 countries, providing a vivid demonstration of creativity in every form of packaging.

\$99.99

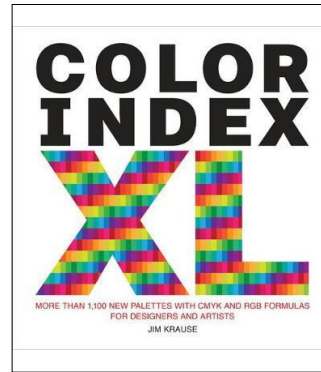

Graphic Design

Mid Century Graphic Design

In *The Moderns*, we meet the men and women who invented and shaped Mid-Century Modern graphic design in America. Some are well-known, others are honored in this volume for the first time, and together they comprised a movement that changed our world.

\$80.00

Colour Index XL (Bestseller)

This updated, expanded, and oversized inspirational resource presents 1,100 colour palettes, with light, bright, dark, and muted varieties for each one, making it the most expansive palette selection tool available.

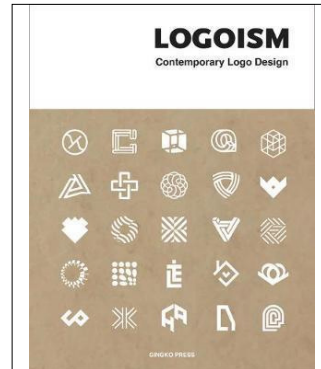

\$55.00

Los Logos 8

Los Logos 8, the classic compilation and thoughtfully curated showcase of current developments in logo design, delves into the realm of an ever-evolving and always present branding component.

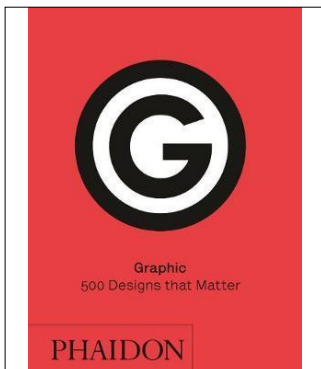

\$120.00

Logoism

Logoism is an inspirational reference for contemporary logo design, a guide to the latest innovations as well as a precursor to coming trends. Over 1,500 cutting-edge logos were selected and divided into six groups.

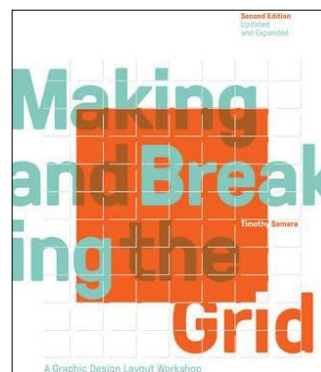

\$89.99

Graphics 500 Designs that Matter

Five hundred of the most iconic graphic designs of all time, from the beginnings of mechanical reproduction to the present. The process of visual communication and problem-solving through the use of typography, space, image, and colour.

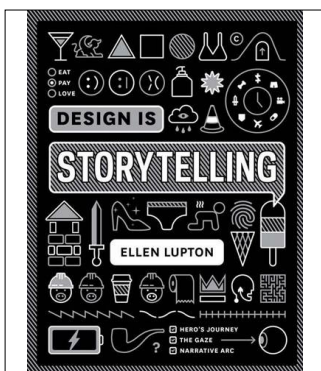

\$45.00

Making and Breaking the Grid Second Edition P/B

Making and Breaking the Grid is a comprehensive layout design workshop that assumes that in order to effectively break the rules of grid-based design, one must first understand those rules and see them applied to real-world projects.

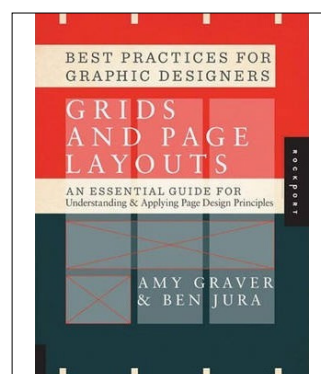

\$45.00

Design is Storytelling

A playbook for creative thinking, created for contemporary students and practitioners working across the fields of graphic design, product design, service design and user experience. *Design is Storytelling* is a guide to thinking and making created for contemporary students.

\$35.00

Grids and Page Layout

This unique, go-to guide for designers fully details the essential layout and design skills needed to succeed in the field of graphic design. With fun and practical application, it offers valuable insight into strategy and business when working in the real world with real clients.

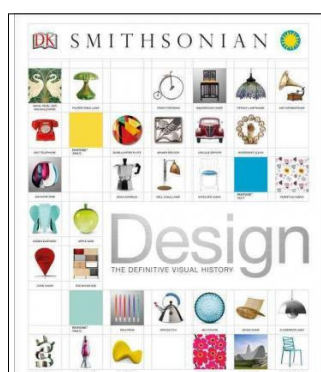

\$59.99

Graphic Design

The book features exceptionally conceived design solutions across a variety of industries—from architecture and product design to art, fashion, and film. This volume shows how excellence can be achieved through collaboration.

\$79.99

Design Visual History

This comprehensive volume covers every major design movement, along with the iconic designers and manufacturers who influenced everyday life through the objects and buildings they created. Fully illustrated throughout.

\$99.99

Graphic Design

Eat and Go Branding Restaurants

Restaurants involved need a set of packages to satisfy both types of diners. A challenge for graphic designers having to combine appealing graphic design with convenience, practicality, food's distinctive features and a brand's characteristics.

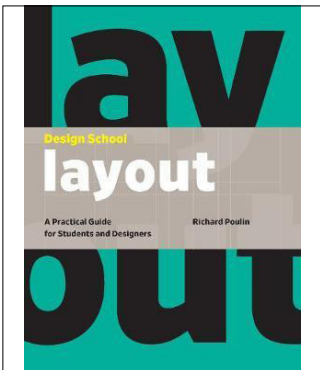

\$89.99

Hang it

Walls are more than the vertical elements that contain a space, they are an opportunity. With just the right wall decor, a space can be transformed, adding a new element of interest and functionality.

\$89.99

Design School: Layout A Practical Guide for Students

This book provides a comprehensive introduction to creating and changing layouts: a crucially important skill that underpins practically every aspect of graphic design. You'll get in-depth analysis of all the major areas of theory and practice.

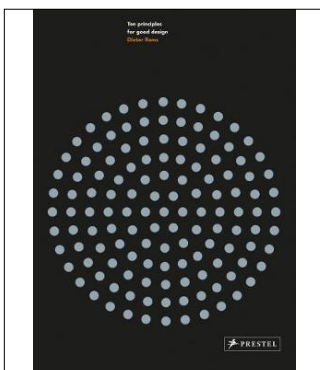

\$32.99

Soviet Bus Stops

Originally published in a quickly sold-out limited edition, Soviet Bus Stops, named one of the best photobooks of 2014 by Martin Parr, is now available in a highly anticipated, expanded smaller-format trade edition.

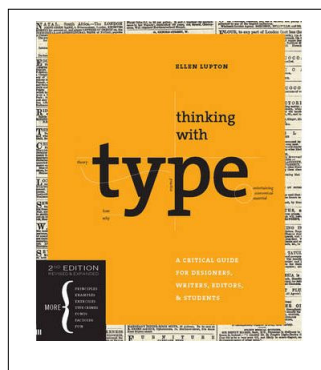

\$50.00

10 Principles of Good Design Dieter Rams

These images and texts offer the most comprehensive overview of Dieter Rams' work to date and will serve as both a reference and an inspiration for anyone interested in how and why good design matters.

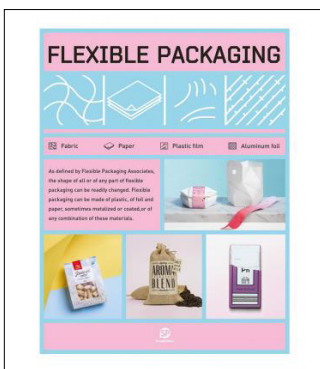

\$140.00

Designing with Type 2nd Edition

Thinking with Type is the definitive guide to using typography in visual communication, from the printed page to the computer screen. This revised edition includes forty-eight pages of new content.

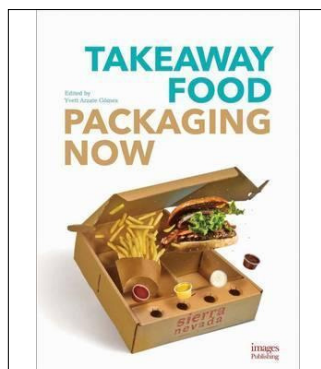

\$42.99

Flexible Packaging

Flexible Packaging investigates the use of pliable materials to create unique packaging solutions for a variety of consumer goods. Easily modified materials such as fabric, paper, plastic and aluminum can readily be applied to products with unusual shapes or properties.

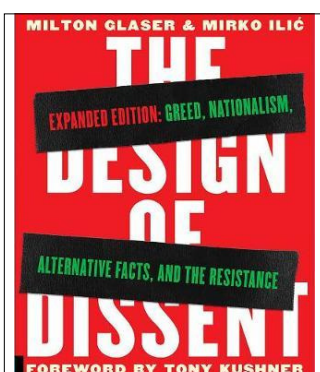

\$110.00

Takeaway Food packaging Now

This comprehensive full-colour guide explores current global trends in takeaway food packaging design driven by a broad range of high calibre designers, including big global players and fast-food giants, and boutique brands.

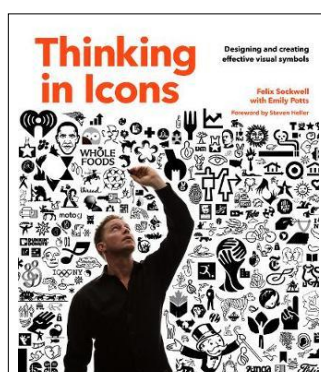

\$79.99

Design is Dissent Expanded Version

The Design of Dissent is a global collection of socially and politically driven graphics on issues including Black Lives Matter, Trump protests, refugee crises, and the environment. Dissent is an essential part of keeping democratic societies healthy.

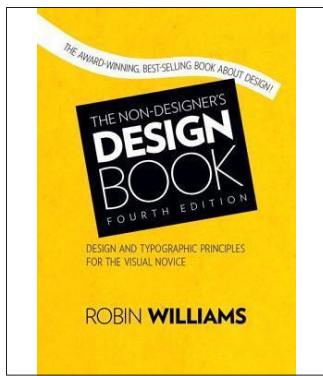

\$32.99

Thinking in Icons Visual Symbols: Designing and Creating effective Visual Symbols

Icons shape the way we see the world around us in business, communication, entertainment, and much more. Now is your chance to learn to speak the textless language of icons with Thinking in Icons.

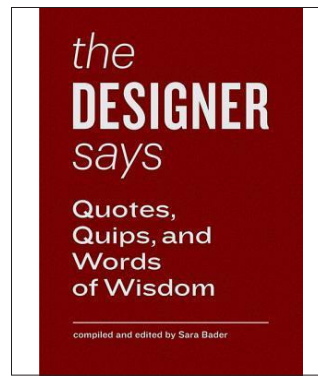

\$32.99

Non Designers Design Book

4th edition, The Non-Designer's Design Book offers even more practical design advice, including a new chapter on the fundamentals of typography, more quizzes and exercises to train your Designer Eye, updated projects for you to try, and new visual and typographic examples to inspire your creativity.

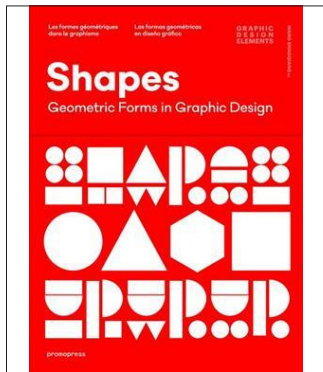

\$69.99

The Designers Say

The Designer Says will resemble a dinner party, with a graphic designer from the eighteenth century sitting next to one practicing today, or two contemporary designers talk to each other, complimenting, competing, disagreeing. Occasionally, a critic will add his or her two cents to the mix.

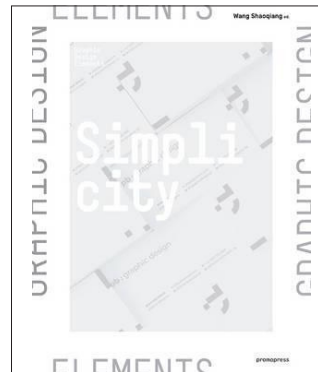

\$27.99

Graphic Design Elements Shapes

Geometric shapes are widely used by graphic designers and applied to all the fields of communication. The broad range of case studies featured in this book displays how familiar shapes can be transformed and used to convey new concepts and trends in design.

\$125.00

Graphic Design Elements Symplicity

The smaller the number of graphic elements, the stronger the impact of each element. From Mies van der Rohe to the Nordic and Japanese design schools, more and more designers have applied minimalism in their works to infuse them with a clear style, be it branding, editorial, communication, or packaging.

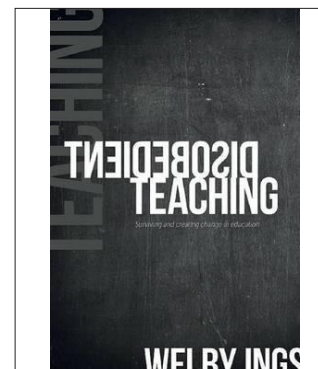

\$125.00

Box Inc

Box Inc. showcases a selection of projects that understand that consumers are no longer just buying what's inside the box, but want to be drawn in by ingenious packaging that is just as special as the product itself.

\$99.00

Disobedient Design

This book is about disobedience. Positive disobedience. Disobedience as a kind of professional behaviour. It shows how teachers can survive and even influence an education system that does staggering damage to potential.

\$35.00
